

MORNING APPEAL.

SUNDAY, MARCH 8

NEW CORPORATION.—The Virginia Standard Mining Company, is the title of a Nevada Incorporation recently formed in San Francisco with a guaranteed working capital of \$20,000 for the development of the Virginia Standard mine, located in Sevenmile Canyon in Virginia mining district, one thousand feet south of Keyes. The company has a tunnel on the property 140 feet in length and is having a blacksmith shop and other buildings erected. The work of development is superintended by P. J. Keyes. The location is on the same mineral belt as the Keyes and is east and north of the Monte Cristo on the Brunswick lode. The work of development will be vigorously prosecuted.—Enterprise.

The Reno Gazette is booming Francis G. Newland for U. S. Senator, but is proclaiming his virtues under a blanket, till the necessary sack is forthcoming.—Beveille.

The Reveille seems to overlook the fact that the Gazette is a moral organ and opposed to lotteries. Under these circumstances insinuations regarding sacks are very much out of place.

The United States Supreme Court has affirmed with cost and interest the cases of the county of Lincoln, Nevada, vs. Charles Sutro, same against Nicholas Luning, and the same vs. C. D. Vincent. The cases involved certain coupons on county bonds, against which plaintiff in error set up the statute of limitation.

Nye county is being congratulated upon having organized a local Board of Trade. We learn, that local boards will soon be started in other counties of this State. Every county should have a Board of trade. Such organizations will prove beneficial to our commonwealth.

The Chinese in San Jose lease property from a white man for twelve months in the year and charge their tenants for thirteen months, there being thirteen months in the Chinese year. The result is a lively kick all around.

The project to pump the water from the Gold Hill mines is being put into shape aggressively slow, says the Enterprise, but we understand that the gentlemen whose hands it rests in are nevertheless at work upon it.

A cold wave, unprecedented in severity at this season of the year, swept over Northern Texas last week and continued for several days. Reports state that thousands of head of range cattle were frozen to death.

A Chinese mining company spent \$8,000 in digging a ditch near Folsome and putting in machinery. They now find there is not water enough to turn their machinery, and their whole outlay is worthless.

A social scandal, involving a man scarcely three months married and a prominent young lady, is shaking Carlin society from center to circumference. The affair will probably culminate in a divorce suit.

The West stood in solidly with Chicago for the World's Fair and downed New York. This shows what the West can do when it unites. Let the West remember this at the next National Convention.

Papers were filed with the Secretary of State Friday, in a suit to be brought by R. L. Horton against the New Pass Mining Company directors, operating in Lander county.

There is plenty of ore in sight to keep all the milling power at work on the Comstock during the whole year, and there will be plenty of power to drive all the mills.

Getting their Catalogues.

WE value to the utmost our out-of-town post office acquaintances. Uncle Sam is our hard working ally and we have no disposition to make his tasks lighter. He grumbles a little during busy seasons when an avalanche of mail orders flood his office here, but that matters little so long as you get your goods on time. In these days of steam and electricity it is a luxury to be an out-of-town shopper. No jostling, no confusion—a catalogue, pen and ink, and you receive as much attention as your city friend. The catalogue is a great help—a silent salesman, perhaps the best. You may know, for instance, that you want ten yards of cashmere for a gown, but the catalogue reminds you of linings and other accessories at such a saving in prices that your postage is a cipher. Then it illustrates a new trimming which takes your fancy and your cashmere gown develops into a stylish affair quite impossible in village shopping. By a systematic turning of its pages other necessities confront you which might as well be ordered one time as another, saving time and money, too.

Our new Catalogue is fuller of illustrations than any previous one. We think seeing things as they are is a help—a two-inch illustration tells you more about a lace pattern or a suit of clothes than we could explain in a column. If the new Catalogue shows an improvement on older methods, the out-of-town people are responsible for it. An unusual order generally puts an idea into our heads—which we think out, and put in force in the next issue. This is why our Catalogue is such a useful book and constantly growing larger.

Send your address, and a catalogue will be sent you free.
